

College Opportunities for PLTW Students

Attention: Below you will find a list of possible opportunities that are available to PLTW students at engineering colleges and universities. All of this information was accurate at the time of contact but these schools may change their policies without notifying us. It is **strongly recommended** that students and parents contact the university directly for the most accurate information since many schools handle student placement on a case-by-case basis.

For IED, POE and DE, each student will take one 50 point exam that counts towards their high school grade. The score of the exam must be higher than a stanine score of a 6 in order to be eligible for college credit. The score will be posted in PowerSchool with the stanine score in the comments.

This information has been covered in class, but feel free to contact Mr. Thomson for more information or go to Mr. Thomson's website and look for the PLTW link.

- College credit can be purchased after successful completion of College Credit Exam and a B in the course.
- http://www.rit.edu/~w-pltw/studentsparents_pltwcourses.php
- Contact Darlene Slack at dlsmet@rit.edu or 585-475-460

- College credit can be purchased after successful completion of College Credit Exam
- PLTW courses may replace undergraduate courses
- PLTW courses will receive credit toward electives
